

INDUSTRIAL PROJECTS

By proactively managing risk and building strong relationships, our Industrial team has the expertise to guide your project from conceptual design through commissioning.

With a focus on quality, safety, productivity and efficient scheduling across every aspect of our operations, we are proud of our reputation as a leading industrial building partner.

Some of our key industrial clients include:

- Halifax Water
- Nova Scotia Power Inc.
- Vale Limited
- Emera Inc.
- Ausenco Limited
- NB Power

PROVEN INDUSTRIAL EXPERTISE

Lindsay Construction understands the complexities and challenges industrial projects encounter. We have a proven track record of successfully addressing the logistical demands of remote location work, regulatory and environmental requirements, while meeting the diverse workforce realities of the various communities we serve across Canada. Our in-house design, engineering and construction capabilities, combined with a reliable subcontractor network and a highly collaborative approach, delivers quality project results.

SECTOR DIVERSITY

Our industrial project experience spans a variety of key sectors, including:

- Waterworks
- Water Treatment
- Aquaculture
- Watercourse Infrastructure
- Oil and Gas
- Aerospace
- Power Generation
- Waste Management
- Manufacturing
- Mining

Lindsay Business Management System (LBMS)
Committed to quality, safety and productivity.
