## RAPID RESPONSE CONSTRUCTION AND MAINTENANCE SERVICES

Lindsay Construction has implemented extensive precautions and measures to protect the health of our workers, families and communities during the COVID-19 pandemic.

By doing so, we are able to continue to deliver essential construction and maintenance services to our clients safely, in accordance with public health recommendations.

As an experienced healthcare sector building partner, our trained workforce is uniquely positioned to offer renovations, construction, maintenance or infection control-related work and services, including:

- Temporary entrances
- Temporary hoardings and barriers
- Isolation rooms/entrances
- Examination and patient rooms
- Negative air unit installations
- Cleaning and disinfecting services
- Ante rooms/waiting rooms
- Hand washing and sanitization stations
- Triage facilities and clinics
- Pressure differential monitor installations

**Lindsay Business Management System (LBMS)**  
Committed to quality, safety and productivity.

**Lindsay Construction has the depth of resources, experience and training to assist your team.**

- We can self-perform most work, which enables rapid-deployment of resources.
- Our workers have the necessary training to work in acute care *and* infection control environments.
- We can assist with Infection Control Plans (ICP's) & Preventative Measures Analysis (PMA's).
- We have access to required personal protective equipment to dispatch via our on-site teams.
- We have established environmental inspection, air monitoring and testing agency relationships.
- Our contractor network is comprised of companies experienced in operational healthcare facilities:
  - Sprinkler and fire alarms
  - Ventilation and heating
  - Access/security systems
  - Temporary power/lighting
  - Medical gas
  - Plumbing
  - Voice/data cabling
  - Technology

**LINDSAY360** offers flexible maintenance plans, facility condition assessments and remediation services to help you maintain safe, uninterrupted facility operations.
